

KARAN PAREEK

Full Stack Developer | MERN Stack

karanpareek174@gmail.com | +91 8101482088 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full Stack Developer (BCA, 2027) with hands-on experience building production web applications, AI-integrated tools, and client-facing digital products. Co-founded Ignitia Digital, delivering 6+ projects across e-commerce and services verticals. Proficient in the MERN stack, React, SEO, and API integration. Comfortable owning projects end-to-end from design to deployment.

EXPERIENCE

Ignitia Digital — Co-Founder *Nov 2025 – Present*

- Delivered 6+ client websites across e-commerce, immigration, and education verticals, achieving 3x organic traffic growth and 2x conversion rates through full-stack development and technical SEO.
- Led end-to-end project execution for 4+ clients by architecting responsive web solutions from design through deployment.

Blue Minch — Web Developer with SEO Intern *Apr 2025 – Jul 2025*

- Improved search rankings for 10+ client websites through keyword research, meta tag optimization, and backlink management using SEMrush and Google Search Console.
- Increased organic traffic by implementing on-page and off-page SEO best practices, driving measurable growth in monthly impressions tracked via Google Analytics.
- Built and maintained responsive web pages using HTML, CSS, and JavaScript, enhancing UX across mobile and desktop.

EDUCATION

Inspiria Knowledge Campus, Siliguri — BCA Honours (Bachelor of Computer Application) *2023 – 2027*

CGPA: 7.5

St. Xavier's School, Siliguri — Class XII *2022 – 2023*

Score: 76%

PROJECTS

- [Steam-Shed Assistant](#) — Offline on-device local RAG assistant for DHR maintenance docs; built and demoed solo at a GDG Siliguri hackathon.
- [GitStack](#) — Self-hosted MERN GitHub clone with a real bare Git storage engine and Smart HTTP protocol support for CLI clone/push/pull; features Issues, PRs with merge-conflict detection and auto-merge, code review, a social feed, and Docker deployment.
- [ReconcileAI](#) — AI-driven finance reconciliation tool (React, Node.js, MongoDB, Claude/Gemini) that unpacks lumped payment-gateway settlements into order-level GST/fee breakdowns via a 3-tier matching engine with human-in-the-loop approvals and immutable audit logging.
- [LiveOps](#) — Real-time team collaboration dashboard built with MERN and Socket.io; features live cross-client task sync via authenticated WebSocket rooms, JWT auth with refresh token rotation, role-based access control, and workspace-level data isolation for multi-tenant use.
- [ReviewPilot](#) — GitHub App for automated pull-request reviews using the Claude API; posts inline review comments on PRs and includes a developer analytics dashboard for tracking review activity and code quality trends over time.
- [Ignitia Digital](#) — Agency website with animated UI and scrollable service showcases; delivered real client outcomes (3x organic traffic, 2x conversions) across e-commerce, immigration, and education.
